Alice Wiratmaja

Financial Literacy For Families

Raising Investors of the Future

Profile

Family's learning companion for the first 3,000 golden days to nurture aspiring life-long learners.

Kinderkloud believes that every child is SPECIAL.

Just like love, there is a specific language for each child to learn and realize their potential.

Kinderkloud is the safe space for children to fall in love with their own way of learning and become lifelong learner.

This will prepare your child to adapt to the everchanging world, because they will gladly learn new things with love and passion.

Empower parents to be the first and most important teacher.

Together with psychologists and educational practitioners curate creative and innovative personalized learning experience for each child

This is our greatest legacy for the future of our children.

kinderkloud

In simple words, more than just a book.

Kinderkloud, your Personal Learning Partner

kinderkloud believes that every child is born a genius. Just like love, there is a specific language for each child to learn and realize their potential. Some are lucky enough to know this early on, have supporting parents and conducive environment that nurtures them from the beginning - while let's just say that some others are not.

Aline Wiratmaja CFP is a renowned news anchor and Certified Financial Planner (CFP).

Aline is known for her practical advice and ability to break down complex financial concepts into easily digestible terms.

Her expertise encompasses a wide range of topics, including personal finance, investments, and retirement planning.

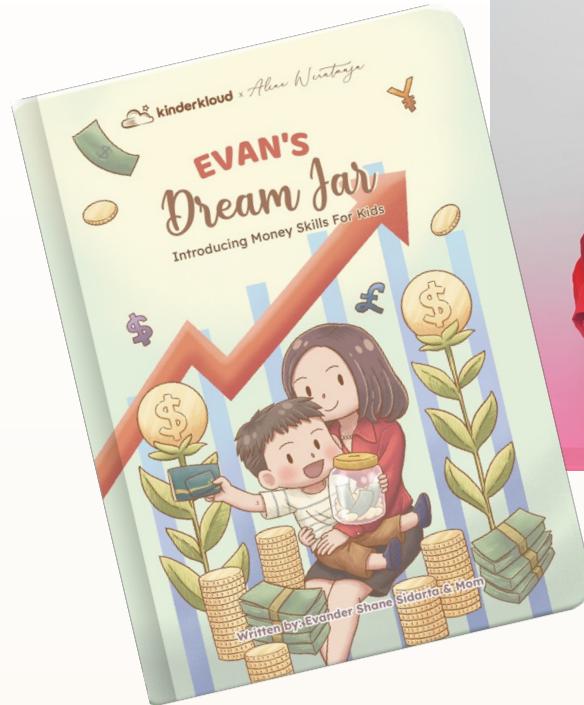

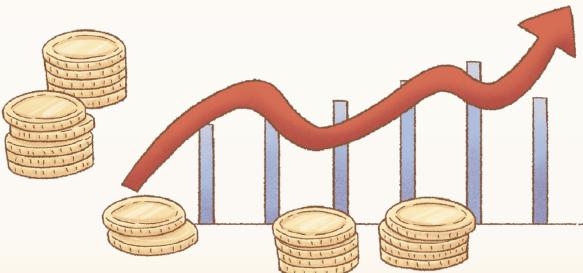

Aline's contributions have helped educate and empower individuals to make informed financial decisions.

Goals

Together with Kinderkloud, Aline envisioned financial literacy for children from a young age. We realized the importance of teaching financial concepts early on and collaborated with her son, Evan, to write a children's book that would introduce these concepts in a fun and engaging way.

Goal of this book:

- Help children **understand the value of money** and develop healthy financial habits.
- **Develop financial literacy skills:** saving, sharing, and making wise **spending** choices.
- **Introduce young children about financial term**
in a way that is age-appropriate and engaging.
- **Support parents** in teaching financial literacy
Provide parents with a valuable resource to help them teach their children about money management.
