# portfolio

Specializing in residence, DP's works have been works in many range of scope such as retail, private offices, public space/installation.

**F&B**

A collaboration design between owner and designer is applied to create an engaging environment, and the ambience designed to be warm or clean based on the key visual of the brand itself.

# office

Combining the client's and designers' ideas, the touch of clean colors following their brand identity. The design serves as a blank canvas for its respective users to be personalized by them, so that each designed areas showcase and reflect the image of its users.

# retail

"Elevate & Engage" sets a new standard for retail design, where innovation and creativity converge to elevate the shopping experience to new heights. By prioritizing customer engagement, brand storytelling, and sustainability, our retail spaces become more than just places to buy products—they become immersive destinations where shoppers can connect, explore, and be inspired.

# residential

Endeavors to elevate the residential experience by creating environments that not only reflect the unique identities of their inhabitants but also foster a deeper connection to the spaces we inhabit. Through a careful balance of aesthetics, functionality, and well-being, our homes become more than just physical structures—they become havens of comfort, beauty, and inspiration, enriching the lives of those who dwell within them.

# Design Development VO Office

Our design team undertook the challenge of transforming a traditional office space into a modern, dynamic environment that reflects creativity and innovation. The client's vision was to incorporate natural elements like wood with a contemporary twist, using pop-up design elements to add interest and functionality to the workspace.

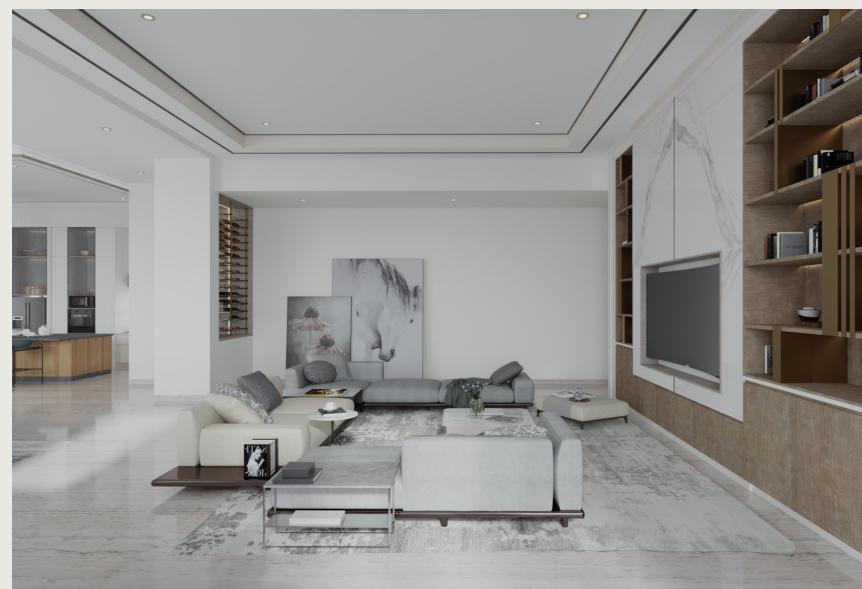

The design concept centered around the juxtaposition of warm wood tones with vibrant, unexpected pop-up elements. We aimed to create a space that would inspire creativity and collaboration while providing practical functionality for daily work tasks. The concept was developed through collaborative brainstorming sessions with the client to ensure alignment with their brand values and operational needs.

Design Development

# Apartment Senayan

Our design team was commissioned to transform a traditional residence into a modern sanctuary infused with clean and natural beauty. Emphasizing a cohesive warm wooden theme, the project aimed to create a harmonious blend of contemporary design elements with the timeless appeal of wood.

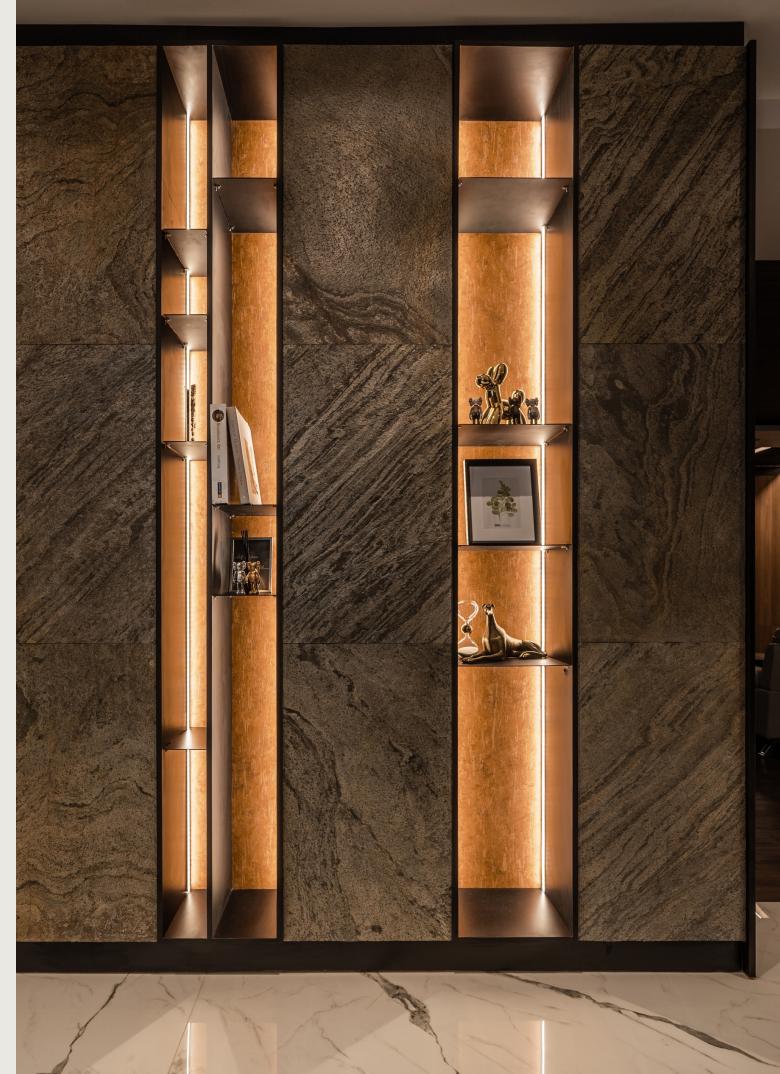

The concept centered around celebrating the inherent Clean and versatility of white as a primary color. We aimed to create a space that not only reflected the client's appreciation for clean design but also enhanced the functionality and aesthetic appeal of each living area.

Design Development

# Blitar Residence

We had the pleasure of transforming a residential space into a cozy and inviting home centered around a warm wooden theme. The client sought a contemporary yet comfortable ambiance that would emphasize natural materials and create a welcoming atmosphere for their family and guests.

The design concept focused on integrating warm wooden elements throughout the home to evoke a sense of warmth, comfort, and connection to nature. The goal was to balance the richness of wood with modern design elements and functional layouts that would enhance everyday living while reflecting the client's personal style and preferences.

Design Development

# CA Residence

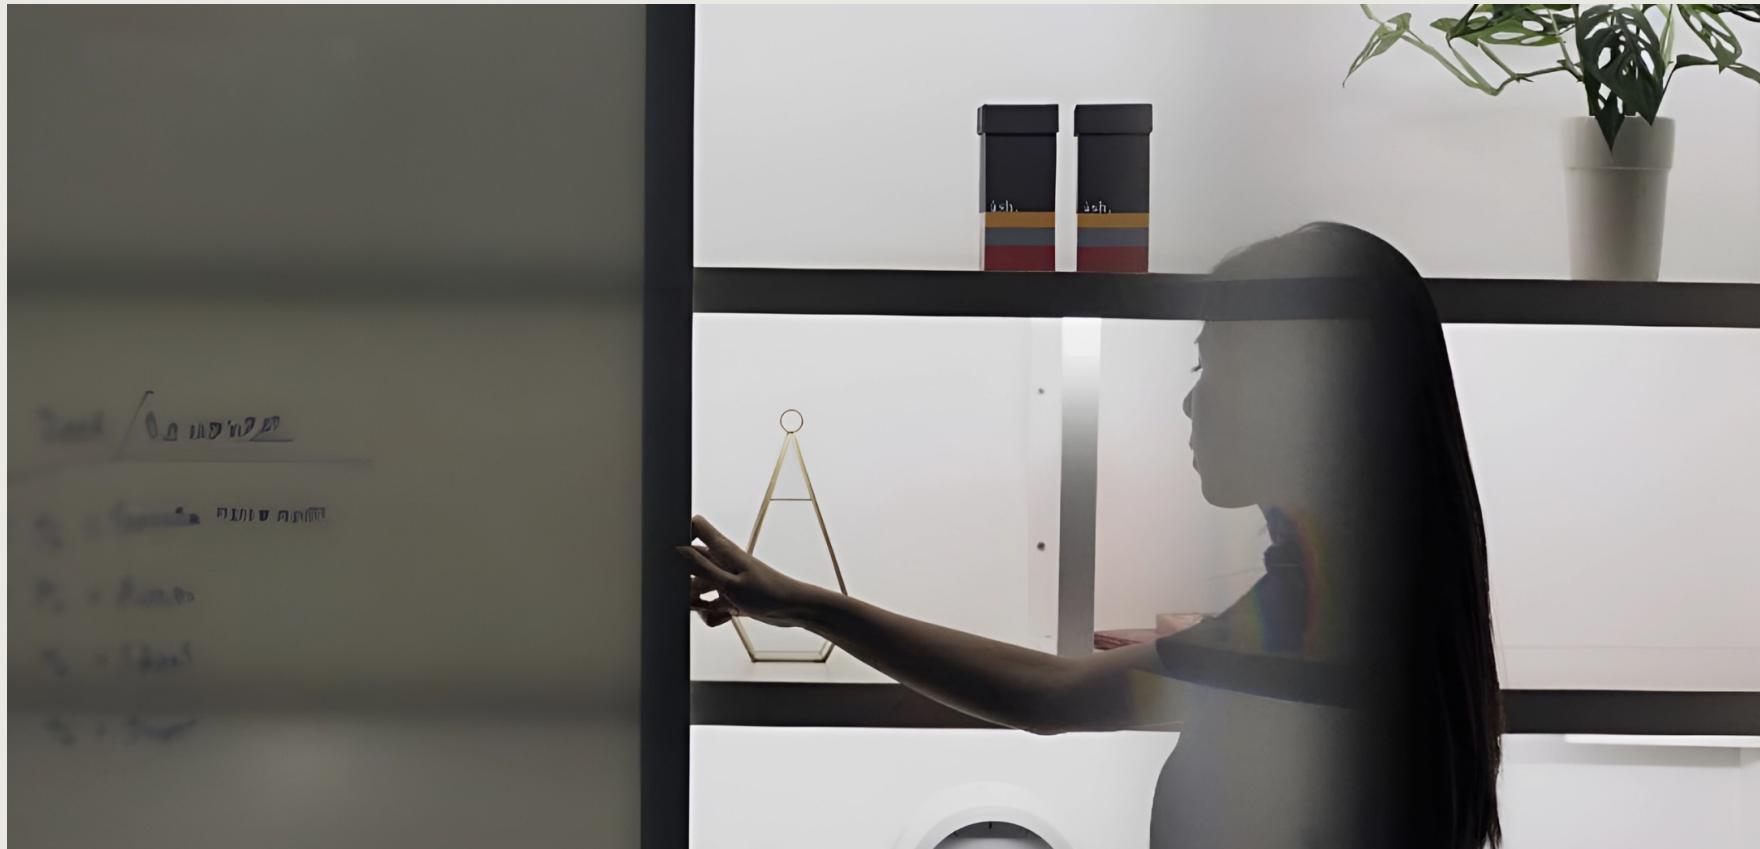

The design for Mr. CA's Residence which focused on functions while at the same time  
Serve the aesthetic of comfortness.

Combining the client's and designers' ideas, the final look of CA Residence is Japanese looking with a touch of wood laminated panel and a texture of glass. The design serves as a blank canvas for its respective users to be personalized by them, so that each designed areas showcase and reflect the image of its users.

Design Development

# PUYO HQ

The design for certain areas in the new Puyo HQ is focused on functions while at the same time utilizing its existing space to create its forms and circulation.

Combining the client's and designers' ideas, the final look of Puyo HQ is clean-looking with a touch of pastel colors following their brand identity. The design serves as a blank canvas for its respective users to be personalized by them, so that each designed areas showcase and reflect the image of its users.

Design Development

# RM KESAWON

Representing the restaurant's traditional image, the design of Kesawan. Restaurant focuses on local materials and craftsmanship. Space planning is made to ensure zone division between public and service areas, to help client work effectively while reaching their daily target within the designed space.

The design aims to create a masculine ambience, incorporating clean lines with a little touch of traditional ornaments.
