About NOD.

NOD - stands for **Never Ordinary Device** - is the 1st all-in-one Capsule Machine.

Living to its' name, this capsule machine is not only a great **Coffee** maker, but also developed to produce a **wide range of non-coffee beverages such as tea, herbal drinks, and other exotic drinks of your choice** - the options are endless.

Proudly developed locally by JumpStart Indonesia, we aim to revolutionize how people make beverages at home by exploring the possibilities of convenience through innovation.

Allowing you to experience having a “personal barista” at home.

nod.

KEY FEATURES

Diverse selection of beverages

Not only Coffee (white & black coffee), this machine serves a wide range of beverage selections such as Tea, Matcha Latte, Babuccino, up to herbal drinks such as Jamu Masuk Angin & Wedang Jahe. The options are endless.

One Touch Brew & Clean

Cappuccino, Latte, Piccolo or any beverage you desire is only clicks away through a single touch screen knob on the machine. From brewing to self cleaning, we got it all covered!

Smart App Operated & Advance Recipe Control

For those who value practicality, our Smart App designed to operate the machine from the palm of your hand. Brew, clean, shop, and customize your drinks from wherever you desire.

Milk Steaming Technology

Equipped with milk steaming technology, NOD produce a silky wet foam for your milk-based beverages, from coffee, matcha latte, to milk tea in one click!

Brew and Bloom Technology for Tea

We are the first Capsule Machine that have a brew and bloom technology, mimicking an artisan tea serving where not only pour the tea leaves with hot water, but we pause and give time for the tea leaves to bloom and release the aroma to create a more fragrant tea time experience.
