

Your ask to your audience is simple: Download the Loop! app, keep it connected in the background, and earn gift vouchers — **minimal effort, maximum reward**. Loop! collects data about how people use apps and the web. That research helps major global brands understand the digital world. Members get paid. Simple as that.

🎁 How Members Earn

- Download the free Loop! app
- Connect once — runs silently in the background
- Earn points automatically every day
- Redeem for a wide range of vouchers including **Alfamart, Shopee & Tokopedia** (Indonesia) and **Flipkart & Myntra** (India)

📱 What Loop! Actually Does

- Works like a **VPN** — routes traffic through a secure tunnel
- Passively records which apps & websites are used
- Data is linked to your **research profile**
- Used by market research firms to understand real people's digital habits
- Clients include major global brands

✅ Who Should Sign Up

- Anyone with an **Android phone**
- Those who want **passive income** with zero effort
- Followers who already use **beermony / rewards apps**
- People comfortable sharing their usage data

💬 Suggested Talking Points

THE HOOK

"I found an app that literally pays you just for using your phone — nothing to do, just keep it running."

THE REASSURANCE

"It only sees which apps and websites you use — never your passwords, banking details, messages or emails."

THE PROOF

"It's run by TRP Research, a legit UK market research company. Been around since 1999."

THE CTA

"Use my link to sign up — you need an invite code to join, so grab it while it's live."

⚠️ Things to Avoid Saying

- × Don't call it "spyware" — it's metered panel research
- × Don't promise specific earning amounts (varies by usage)
- × Don't say data is "sold" — it's licensed for research
- × Don't say it works on iPhone — **Android only** in Indonesia & India

Poin Pembicaraan yang Disarankan

PEMBUKA

"Gue nemuin aplikasi yang literally bayar kamu cuma dari pakai HP — nggak ada survei, nggak ada yang harus dikerjain."

MENENANGKAN

"Loop! hanya melihat aplikasi dan situs mana yang kamu buka — bukan password, detail perbankan, pesan, atau email kamu."

BUKTI KREDIBILITAS

"Ini dijalankan oleh TRP Research, perusahaan riset pasar resmi dari UK. Sudah berdiri sejak 1999."

AJAKAN BERGABUNG

"Pakai link gue buat daftar — kamu butuh kode undangan untuk masuk, jadi segera ambil sekarang."

Yang Harus Dihindari

- × Jangan sebut "spyware" — ini riset panel terukur
- × Jangan janjikan jumlah penghasilan pasti (tergantung penggunaan)
- × Jangan bilang data "dijual" — data dilisensikan untuk riset
- × Jangan bilang tersedia di iPhone — **Android saja** untuk Indonesia
