

BTSE AutoTrader

The New Evolution of Copy Trading

Copy Winning Strategies!

Professional trading teams test thousands of strategies daily so you can easily copy top performers!

How It Works

01 Pick a Token You Like

Users decide on which token to run our professional trading strategies on.

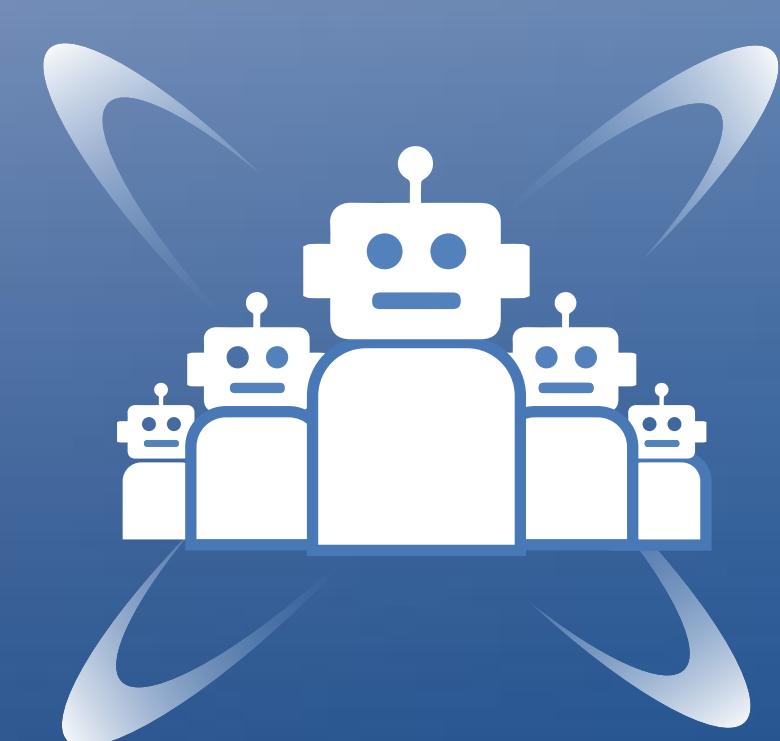

02 Choose a Strategy

Copy our hand-picked strategy, or adjust parameters with just a few clicks!

03 Monitor

Take profit, stop, or change a bot. Track overall P&L.

Why AutoTrader?

Unlimited Strategies to Copy

Running out of new people to copy? AutoTrader has new strategies adapted to live market conditions. 1000's of strategies are tested everyday so you can always choose the best!

Easy for New Users

Want to trade crypto but don't know how? AutoTrader simplifies trading so users of all levels can get started with just a few clicks.

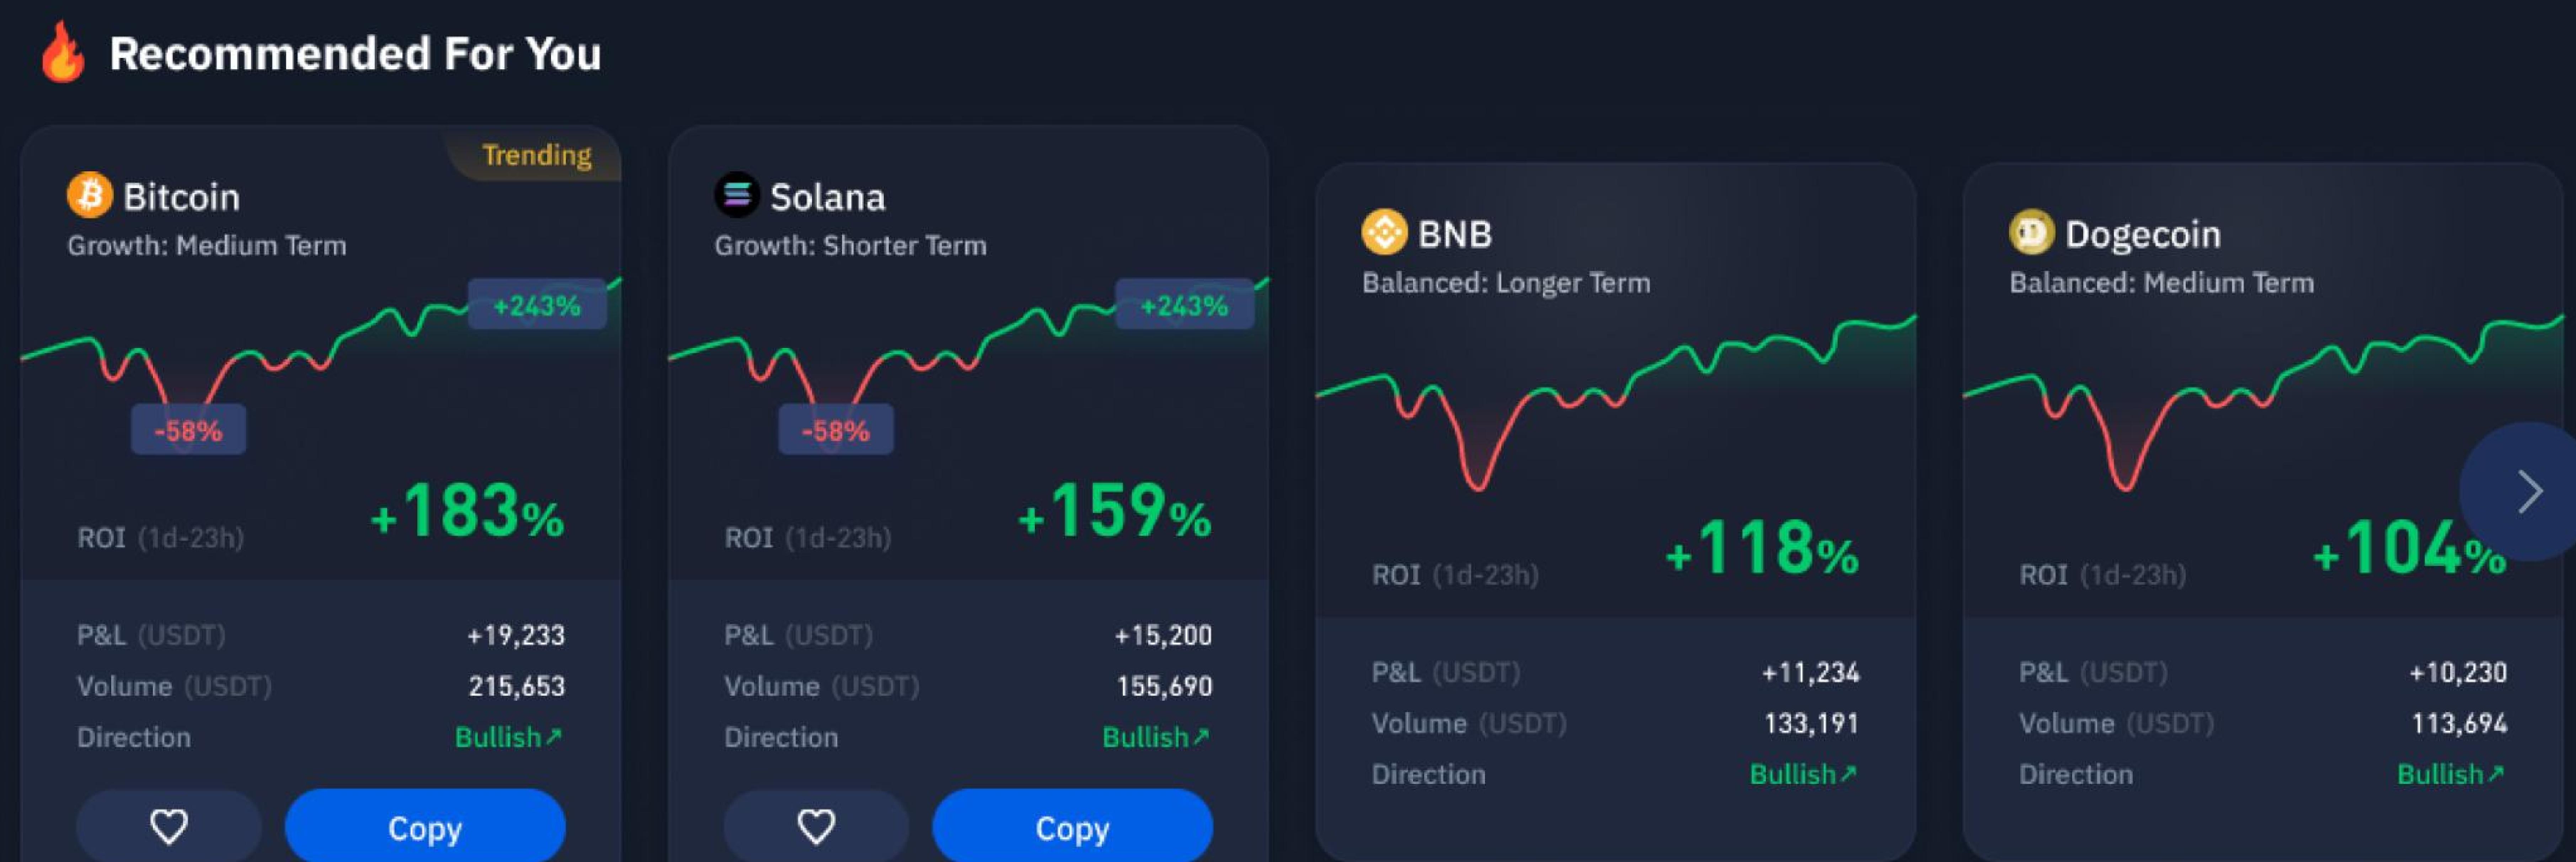

Tailored For You

Users can effortlessly choose their risk and investment profiles and monitor several strategies simultaneously until they identify their favorites.

Tips and Tricks (From our top users)

General Tips

To find the highest ROI of all time **>>>** Click [Sort by ↓ROI]

To find the best ROI Performance in shortest time **>>>** Click [Trending] filter in [Highlighted Strategies] section

Insight: These are Pre-selected strategies for you based on our performance algorithm

For more stable strategies, >>> Choose [BTC] or [ETH] tokens.

Insight: Smaller tokens fluctuate more than blue-chip tokens.

For higher profit (or loss) potential >>> Choose alt-coins that may be trending in the news, or have community hype.

Insight: Smaller market-cap tokens are more easily influenced by market hype and can be more boom or bust.

For more information on how AutoTrader works check out [BTSE Blog](#) or [Contact Us](#)

If Market Trading Sideways

If market is fluctuating **>>> Sort strategies by the highest ROI % and go opposite.**

→ If the strategy is [Bullish] then choose [Bearish] parameter. (Or vice-versa)

Insight: Market is moving up and down, so can predict the strategies that have grown too much to decline

If market is fluctuating >>> Sort strategies by the lowest ROI % and click [Copy].

Insight: Market is moving up and down, so the low ROI ones may not have grown yet, can predict them to grow

If Market Trending Upwards

If you believe the market is bullish **>>> Copy the highest ROI % strategies and select [Bullish] parameter.**

Insight: Things are pumping so ride the wave

If Market Trending Down

If you believe the market is bearish **>>> Copy the highest ROI % strategy and select [Bearish] parameter**

Insight: These strategies may have grown too much, may predict them to decline
