Risk Disclosure:

Online trading of securities, futures, currencies, foreign equities, CFDs, and other financial instruments involves substantial risk of loss due to unpredictable market movements, potentially resulting in losses that exceed your initial investment. Past performance is not indicative of future results. You should thoroughly understand the risks involved in trading any financial instrument and seek independent financial advice before making any trading decisions. The trading symbols displayed are for illustrative purposes only and do not constitute advice or recommendations. Doo Financial shall bear no liability for any direct, indirect, special, consequential, or incidental losses or damages arising from your transactions.
